

Going all digital Making it happen for health

EHTEL 2017 Symposium

15 - 16 March 2017 in Brussels, Belgium

The yearly EHTEL Symposium convenes the European eHealth community - health policy leaders, strategic EU projects and initiatives, NGOs, industrialists and more stakeholders. The 2017 Event is inspired by EHTEL's championship for the Blueprint on Digital Transformation of Health and Care for the Ageing Society. Also, the Digital Single Market objective "Digital first" provides perspectives around digital innovations and the transformation of care.

- ▶ Safeguard the quality of the transformation towards "all digital"
- ▶ Co-create with the community and the whole work force in the design of services
- ▶ Make standardisation meaningful for age-friendly environments and health care
- ▶ Foster digital skills in all health related professions to enable innovation
- ▶ Make the EC Digital Innovation Blueprint into a living document

EHTEL 2017 Symposium Plenary Day kindly hosted by EESC, the Voice of Organised Civil Society in the Union's Decision-Making Process at venue Rue Van Maerlant 2, Brussels - Belgium.

Meet-Learn-Collaborate

15 March 10:00 - 19:30 **EHTEL Communities' Day**
